Project Profile

Title:- Connecting Dots

Objective:-

The main aims and objectives of this project is to design a web-based app that helps the Donors and The NGO's Ease their work. Specifically, the aims are to:

Design and integrate an automated system to improve the services and decreased the time spent calls and searching for services offered in the donation.

NGO can share thier requirements , user can search and view various NGO based on location.

Configure a gateway system for online payment to enable individual's ease of payment from their mobile devices.

Design and implement users register page, login and online event booking.

Therefore, we propose to build a Connecting Dots for the distribution of donations between NGOs, giving people the ability to notify about the requirements, and to inform about the poor who need help.

Project Description:-

“Connecting Dots” provides a combination of services like finding the required NGO among various NGOs and online donation as well.

The user with the help of this website can search for NGO area wise too.

The purpose is to make the whole process more professional when applying for donations, grants etc and gives donors and partners a place where they can go to find more information about their organization.

Here, the goal is to provide many services to the users at same platform to improve and build the connection between donors (users) & NGO and there's no discomfort to both the NGO & the users.NGO can also post their ngo related updates on website.

User can book various events in NGO.

Tools and Technologies used(Module-Wise):-

Hardware Used:-

Processor : Intel core i5
RAM : 8GB or more than for smooth experience.
Storage : around 100GB (may expand in future).

Software Used:-

Tools:-

Vs Code(Open source by Microsoft)
Sublime

Technologies:-

Front-end : HTML5,CSS3,Bootstrap,JavaScript
Back-end : MySQL
Open Source Library : jQuery
Scripting Language : PHP

Existing System:-

Currently there is not such a website present which can connect NGO and Donors.

NGO has to post thier requirements on social media so users can view the details.

NGO has to connect donors via call and whatsapp.

NGO manage thier requirements on books.

User needs to connect NGO via call or social media.

User can pay donation via cash or cheque.

User can not able to view the past and upcoming events.

Proposed System:-

Connecting dots will be bridge between NGO and Donors.

NGO can create his account on website using basic details.

Admin will verify the NGO details and update profile on website.

NGO can easily update their requirements on website so they will get donors.

NGO can manage various requirements and donation details.

NGO can able to view the Feedbacks.

User can search and view various NGO details by category and area.

User can create his account on website using email and password.

User can view various NGO details and requirements.

User can share NGO feedback details on website.

User can able to donate online from website.

User can view past donation details.

User can able to view various orphan child details from website.

User can able to send adoption request to admin.

User can manage his profile details.

Admin can generate various reports.

Admin can manage the complete website from Admin Panel.

User and NGO can able to contact admin.

User can able to view NGO Events.

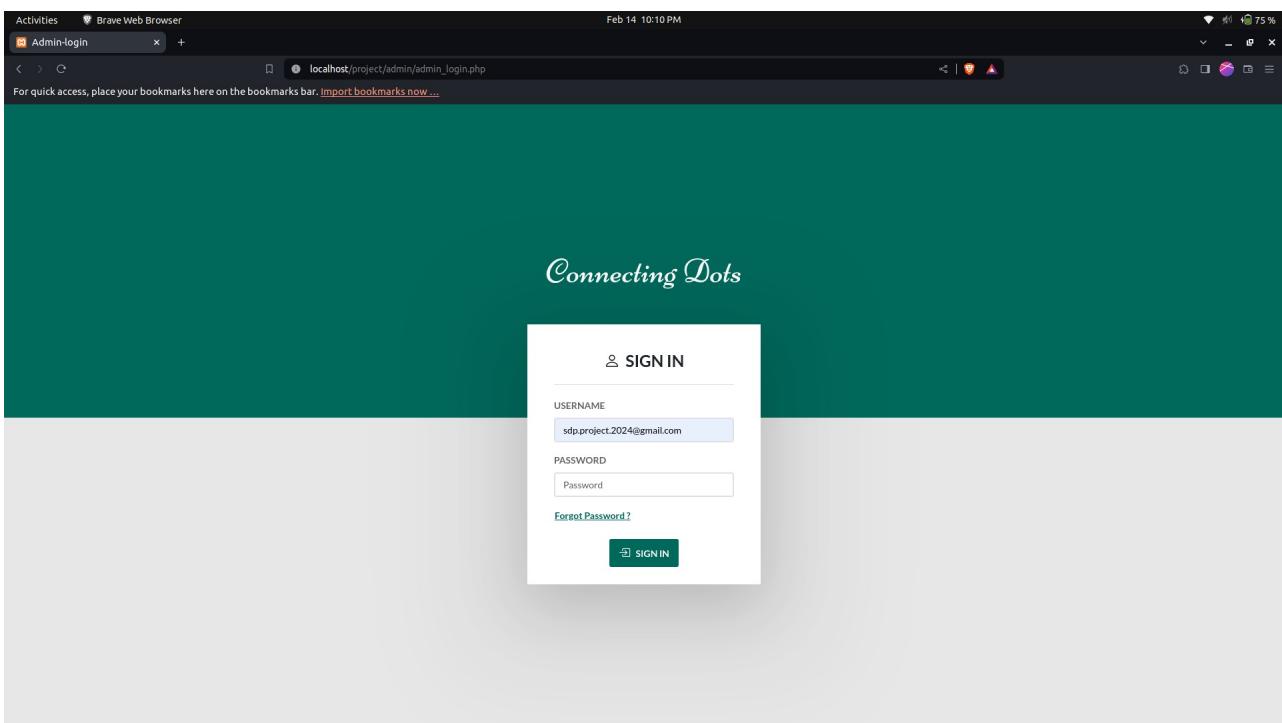

Volunteer can create account on website.

Volunteer can view the donation details.

Blog Information:

This screen shows all the details of the blog written by the admin.

The screenshot shows a web browser window titled "Blog Information" with the URL "localhost/project/admin/blog_information.php". The page is titled "Blog Information" and displays a table of blog posts. The table has columns for "ID", "Title", "Details", "Photo", and "Action". There are four rows of data:

ID	Title	Details	Photo	Action
1	Why Donation is Important for NGO ?	"Making a difference doesn't always require grand gestures, sometimes a simple act of donation can create a ripple effect of change. As we all know, NGOs play a crucial role in addressing social issues and making our world a better place. By donating to these organizations, we are not just giving money, but also hope, resources, and support to those in need. Together, we can be the driving force of positive change #DonationIsKey #NGOsMatter #BeTheChange #SpreadHope"		
2	Various NGO Types for Donation	Make a difference in the world by supporting different types of NGOs! From environmental conservation to education initiatives, each organization plays a vital role in creating a better future for all. Let's come together and make a positive impact through our donations. It's not just about giving, it's about creating a ripple effect of change.		
3	Why donation is important for everyone?	To make the world a better place for everyone, we all need to play our part in whatever way we can. Maybe that's through volunteering your time or skills for a cause you care about, or perhaps it's something as simple as being kind to strangers you meet in your day-to-day life. But you can also help make a difference by donating what you can to charity too. You might be thinking, why donate to donate? While we like to believe we can make a difference on our own, sometimes we can do more together. The way donations are structured lets them use money raised to directly help people who need it on a larger scale than we can as individuals. And if you have any concerns about how money you donate is used, you can always look at a donation's annual report to get reassurance that donations made to the donation are actively helping their beneficiaries.		
4	Why should you donate to the education of impoverished children?	As a keystone of human development and progress, education has long been recognized as an essential element in cultivating the skills, knowledge, and critical thinking abilities necessary for individuals to thrive in the ever-changing world we inhabit. It is a fundamental human right, yet many children around the world are deprived of access to basic education. In fact, according to the ASER (Rural) report during the pandemic, children (aged 6-14 years) who are not currently enrolled in schools increased from 2.5 percent in 2019 to 4.6 percent in 2021. Underprivileged children lose their ability to have a normal childhood. They aren't capable of developing emotionally, physically, and socially. Moreover, research has shown that they are more likely to be depressed, have low self-esteem, not receive an education, and suffer from a lack of sleep and bad nutrition. As these children grow up, they are less likely to positively contribute to society since they might not be able to hold a stable and well-paying job. Instead of working, they are more likely to partake in crime and fall victim to the criminal justice system. This is where education donation comes in, as it can help provide underprivileged children with the opportunity to learn and grow.		

FAQ Information:

This screen displays all the FAQ details.

The screenshot shows a web browser window titled "FAQ Information" from the URL "localhost/project/admin/faq_information.php". The page is part of a system named "Connecting Dots" as indicated by the logo and sidebar. The sidebar on the left includes links for NGO, Category, Users, Volunteer, Area, Items Requirements, Donation, Child, Feedback, Blog, FAQ (which is currently selected), and Reports. The main content area is titled "FAQ Information" and contains a table of frequently asked questions. The table has columns for ID, User Name, Question, Answer, and Action. There are 9 rows of data, each with edit and delete icons in the Action column. The questions and answers are as follows:

ID	User Name	Question	Answer	Action
2	Laxmi Prajapati	Can I designate how my donation is used?	In some cases, donors may have the option to designate their donation to specific programs or projects within our organization. We strive to accommodate donor preferences whenever possible, but please note that unrestricted donations allow us to allocate funds where they are needed most.	
3	Laxmi Prajapati	What happens if you receive more donations than needed for a specific program or project?	In the event that we receive more donations than needed for a specific program or project, we may reallocate those funds to other areas of our work where they can have the greatest impact. Rest assured that every donation is used thoughtfully and responsibly to advance our mission.	
4	Durga Prajapati	What steps do you take to ensure that donations are used efficiently and effectively?	We have robust internal processes and systems in place to ensure that donations are used efficiently and effectively to achieve maximum impact. This includes regular monitoring and evaluation of programs, financial oversight, and adherence to industry best practices in nonprofit management.	
5	Jugal Patel	Is my donation tax-deductible?	Yes, your donation may be tax-deductible, depending on the tax laws in your country and the status of the organization you're donating to. In many countries, donations made to registered nonprofit organizations or charities are eligible for tax deductions. However, it's essential to verify the tax-exempt status of the organization you're donating to and consult with a tax professional for guidance on how your donation may impact your tax situation. Keep records of your donation, such as receipts or acknowledgment letters from the organization, to support your tax deduction.	
6	Drashti Lal	I don't have much money. Can I help?	Absolutely! Every contribution, regardless of size, makes a difference. There are many ways to support a cause beyond monetary donations. Here are some ways you can help: Volunteer your time, Spread awareness, Donate goods or services, Offer your skills. Remember, your contribution, no matter how small, can have a ripple effect and create positive change in the world. Thank you for considering how you can make a difference, even with limited resources.	
7	Nitya Parmar	Can I make a donation by check?	Yes, absolutely! We welcome donations made by check. Please make your check payable to [NGO Name] and include any specific designation or purpose in the memo line if applicable. You can mail your donation to our mail address.	
8	Vidhyam Thakkar	How will my donation be used?	Your donation plays a crucial role in supporting our mission and making a positive impact. The specific use of your donation depends on the needs and priorities of our ongoing programs and initiatives. We allocate funds to a variety of areas.	
9	Ishani Kerai	How can I contact particular NGO for more information?	You can reach out to us via email at [NGO Email Address] or by phone at [NGO Phone Number]. Our team is available to answer any questions you may have and provide additional information about our organization and programs.

How We Work A Clear Vision Great Mission

Our Mission for a Better World!!

Our mission is to empower individuals to make a difference by bridging the gap between passionate people and impactful NGOs. We envision a world where finding the right cause and contributing is seamless and efficient. Through our comprehensive NGO directory, we enable users to discover causes that align with their values, easily access vital information, and donate directly or contribute their time through volunteer opportunities. We promote transparency and accountability by featuring verified NGOs and showcasing their impact. Ultimately, we strive to be a catalyst for positive change, fostering a stronger, more engaged civil society where everyone can participate in building a better tomorrow.

Conclusion

Highlight the accomplishments and objectives that were successfully met during the project. This could include the development and implementation of the online system, increased efficiency in managing online donation system or improved transparency.

Outline the benefits of the online donation system, both for the NGO itself and donors. This include improved donation tracking, enhanced communication with donors, or better support for those in need.

Thus we conclude that we enjoyed very much working on the project “Connecting Dots” our internal guide Prof. Deep Mavawala helped us a lot in improving the quality of our project.

As well as our external guide Mr. Jugal Prajapati helped us a lot in giving suggestions for better functioning of our work.

This is just the Stepping stone for project development there is new paths to be discovered and there are new goals that are to be achieved .

Future Scope

We will add live chat feature which is a real-time communication tool that allows users to interact with a NGO or website's users through text-based messaging. It typically appears as a chatbox on a website or within a mobile app and enables users to ask questions or provide feedback.

NGO can get WhatsApp notifications for donation.

NGO owner will update the status once he received the donation details. The user can track the donation status from website. Various Status will be visible like Pending, inProcess, Completed etc.
